

The Prophecy of the Starlight Throne

Uulkan Karabaeva

Elena wakes up in an enormous, gilded bedroom of an ancient palace, far from her ordinary modern life. Outside her window, jagged mountains and a towering castle rise under two luminous moons. Before she can process her surroundings, a tearful maid bows at her bedside and whispers that the princess has finally awakened.

Stepping into the grand throne hall, Elena meets the king's three sons, each harboring a distinct reaction to her return. Julian, the stern eldest prince, loses his legendary composure as his cold gaze locks onto hers, while Cassian, the charming middle brother, flashes a reassuring smile and steps between her and whispering nobles. Meanwhile, Kaelen, the silent youngest prince, watches from the shadows with mysterious, knowing eyes.

During a lavish grand ball filled with foreign aristocrats obsessed with claiming her hand, Elena finds herself at the center of intense romantic rivalry. A visiting duke attempts to bind her with a dangerous magical vow, but Julian forcefully steps in, his jealousy flaring as he asserts his duty to protect her.

Refusing to be a helpless spectator in this strange world, Elena sneaks into the royal archivism and uncovers a hidden tome. The parchment reveals an ancient prophecy foretelling that a girl from another realm will arrive to either save or shatter the kingdom.

Late at night, a haunting voice echoes through the silent palace corridors, calling Elena by her modern name from behind a locked crimson door. As a shadowy monster lunges at her from the darkness, Kaelen appears from nowhere, wielding dangerous obsidian magic to destroy the creature before whispering a cryptic warning about her past.

Determined to uncover the secrets surrounding her, Elena explores the forbidden enchanted glasshouse beneath the silver moonlight. Cassian catches up to her, using his warm light-magic to conjure glowing blossoms that bring a genuine smile to her face as he swears to keep her safe from the court's deadly traps.

At the royal masquerade, Julian cuts in to claim a passionate dance, his icy exterior completely unraveling in Elena's presence. As they glide across the marble floor, he urgently confides that the second half of the prophecy demands a dark sacrifice—one he promises to prevent at any cost.

Ancient curses awaken across the realm, sending shadowy beasts flooding into the palace courtyard and throwing the foreign nobles into absolute panic. Taking charge of her own destiny, Elena uses the knowledge she decoded from the archive to reactivate the castle's ancient magical defense barrier alongside the three princes.

In the deep subterranean sanctuary beneath the castle, the true villain behind the kingdom's curse unleashes a wave of destructive magic. Working together, the three brothers fight fiercely to shield Elena, while she steps forward bravely to channel her unique realm-straddling power and shatter the ancient dark curse once and for all.

Standing on the high balcony under a brilliant sky filled with restored magic, Elena holds a glowing artifact that offers her a doorway back to her modern world. She looks back at Julian, Cassian, and Kaelen, who gaze at her with devotion, and realizes her heart belongs in this dangerous, breathtaking fairytale she now calls home.
