Kaito, a recent college graduate with a bright future, pushes a young girl out of the path of a speeding truck. In a flash of light, his life in the modern world ends, leaving behind his wealthy family and a hundred million yuan business venture.

Kaito opens his eyes to find himself a four-year-old boy with striking white hair and deep blue eyes, drifting alone on a small boat. Surrounded by a vast, sparkling ocean, he realizes he has been reborn into a completely different world with nothing but the clothes on his back.

After five days at sea, Kaito spots the lush greenery of the Goa Kingdom and docks his small boat at the peaceful Foosha Village. Though young and small, his handsome face and cool demeanor draw curious glances from the villagers as he searches for food.

Kaito enters a lively tavern where a kind and beautiful woman named Makino welcomes him with a warm smile. Inside, the legendary Red Hair Pirates are feasting, their boisterous laughter filling the air as they notice the mysterious young boy who just walked in.

A seven-year-old boy named Luffy bursts into the tavern, shouting his dream of joining the pirate crew to Captain Shanks. Shanks playfully teases the boy, calling him a brat while the rest of the crew roars with laughter at their captain's jokes.

As Kaito finishes his meal, his eyes meet Luffy's, and a mechanical chime echoes in his mind, signaling the activation of a powerful multi-function system. He realizes he can grant his future crew members unique systems that will reward them with god-like powers from across many worlds.

Kaito approaches Luffy and invites him to join his own crew, promising an adventure on a magical boat equipped with incredible technology. Captivated by Kaito's mysterious charm and the promise of a grand journey, Makino decides to join them as their cook, leaving her quiet life behind.

The trio sets sail from the village, and Kaito's simple boat instantly transforms into a magnificent vessel with advanced features like the Coup de Burst. From the shore, the villagers wave goodbye as the small but ambitious crew heads toward the horizon of the Grand Line.

On the open sea, Kaito grants Luffy and Makino their own systems, bestowing Luffy with the Undead Immortal Physique that allows him to heal instantly from any wound. As they explore their new powers, their bond as a crew strengthens, and Kaito feels his own strength multiply a hundredfold.

The Red Force follows from a distance as Shanks watches over the young crew, curious about their strange and rapid growth. Kaito and his friends encounter rival pirates and steal supplies, their journey just beginning as they prepare to face the challenges of the vast blue ocean.
