

Whispers of the Goddess

eko

Ren Sato sits by the window in a bustling Tokyo classroom, watching the cherry blossoms fall outside. He feels like just another face in the crowd, unaware that his quiet life is about to change forever.

During a sudden, blinding flash of light on his walk home, Ren feels a sharp sting in his temples. When he wakes up the next morning, the world sounds different, filled with a low hum of voices that aren't actually speaking.

Walking through the school gates, Ren realizes he can hear the private thoughts of everyone he passes. The air is thick with worries about exams, lunch plans, and secret crushes, making his head spin with the sensory overload.

Akari Himari, the elegant class president known as the school's Goddess, glides through the hallway with her usual grace. Everyone admires her calm and collected demeanor, but Ren sees a flicker of something intense in her eyes as she glances his way.

As Akari passes Ren's desk, a voice screams in his mind, 'He looks so cute today, I can't breathe!' Ren freezes in shock, realizing the voice belongs to the perfectly composed girl who hasn't even opened her mouth.

During lunch, Ren tries to hide behind his book, but Akari's thoughts are like a radio station tuned only to him. She is meticulously planning how to accidentally sit near him, her mind filled with detailed memories of every time they've ever spoken.

Ren discovers a hidden corner of the library where Akari often lingers, and he hears her internal monologue reciting his favorite foods and hobbies. He realizes her knowledge of his life is far deeper and more intimate than he ever could have imagined.

When a group of students crowds around Ren, Akari steps in with her authoritative Goddess persona to disperse them. While her voice is cold and professional, her mind is roaring with a protective fury, wanting to keep him all to herself.

In the quiet library after school, Ren finds Akari staring at him from behind a bookshelf, her face a mask of indifference. However, her thoughts are a whirlwind of longing, wondering if he will ever notice the depth of her devotion.

Ren looks at the Goddess and finally sees the girl behind the legend, realizing her secret world revolves entirely around him. As their eyes meet, he decides not to run away, but to navigate the strange, telepathic bond that now connects their hearts.
