

Leo and the Whispering Star

med chryki

Leo the little bear sits on a soft green hill.
He looks up at the big, dark blue sky and smiles
at the glowing moon.

Suddenly, a tiny yellow star winks and wiggles in the sky. The little star waves its points at Leo and says a soft hello.

The tiny star falls down, down, down from the sky like a bright teardrop. Leo opens his fluffy paws and catches the warm star safely.

Leo names his new friend Twinkle, and they share a sweet, juicy apple together. Twinkle glows brighter and happier with every bite.

Twinkle blows a bubble of magical blue stardust all around Leo. The little bear feels light and floats up into the cool night air.

Leo and Twinkle fly past the smiling white moon and dance through fluffy, purple clouds. They laugh and spin around together in the sky.

They meet a friendly, sleepy owl sitting on a silver cloud. The owl hoots softly and points the way back to the high star kingdom.

Leo helps Twinkle jump back onto her favorite high blue sky shelf. Twinkle sparkles with joy and kisses Leo on his fuzzy nose.

The magical stardust gently carries Leo back down to his cozy green hill. He waves goodbye to his bright friend shining high above.

Leo climbs into his warm, soft bed and closes his sleepy eyes. He dreams of flying through the beautiful, friendly stars all night long.
