

Mya and Hana Help Lilly the Fairy

Juma A Chadni

Mya and Hana are playing in their sunny garden, chasing butterflies among the colorful flowers.

Suddenly, they spot a tiny, sparkling fairy hiding beneath a wilting rose. It's Lilly, and she looks very sad.

Lilly explains that the garden's magic is fading because everyone has forgotten how to be kind and share.

Mya and Hana decide to help Lilly! First, they gently water a thirsty sunflower, bringing it back to life.

Next, they find a group of snails arguing over a juicy leaf. The sisters share the leaf, making everyone happy.

They then notice the flowers are looking dull. Mya and Hana sing a cheerful song, and the flowers begin to bloom brighter.

Hana shares her favorite teddy bear with a lonely ladybug, who instantly perks up with a smile.

Mya and Hana work together to build a small birdhouse, providing a safe home for a family of robins.

As they continue to spread kindness, the garden starts to glow with vibrant colors and magical sparkles.

Lilly, overjoyed, thanks Mya and Hana. The garden is now full of happiness, all thanks to their kindness and sharing.
