The morning newspapers in Spielberg are filled with chilling headlines about the unsolved mystery of the Black Shadow. Everyone is talking about the strange occurrences and the fear gripping the nearby village of Skyrope.

Two hundred years ago, a ruthless ruler named Roger governed Skyrope with an iron fist from his cold stone manor. His dark legacy and the stories of his cruel reign still linger in the whispers of the oldest villagers.

On a stormy, moonless night long ago, a mysterious black shadow was said to have swept through the manor, ending Roger's family line forever. The figure vanished into the depths of the Leon Forest, leaving no physical evidence for the police to find.

Now, the ancient Leon Forest has become a place of dread where the trees grow thick and the sunlight barely touches the ground. Locals claim that the shadow has returned, and anyone who ventures into the woods faces a grim fate.

In the heart of Skyrope village, residents gather in small groups, their faces pale with fear as they discuss the recent disappearances. The legend of the Black Shadow has moved from the pages of history books into their terrifying reality.

THE SEARCH BEGINS

MR. JOHN SMITH INNOCENT VICTIM?

The Spielberg Police, unable to find any leads, officially hand over the investigation to the famous detective James Robert. Accompanied by his partner William Jackson, James arrives in the village with a look of calm determination.

NIGHT PURSUIT

Inside a quiet study, James and William pore over dusty maps and old police records from centuries ago. They look for a logical pattern in the chaos, hoping to find a connection between the ancient massacre and the modern sightings.

Armed with lanterns and keen observation skills, the two investigators step into the edge of the Leon Forest just as the sun begins to set. The air grows unnaturally cold, and a thick mist curls around their boots like reaching fingers.

THE SILENT PURSUIT

CHAPTER 1: GLOWING TRACES

Deep within the woods, they discover the crumbling, vine-covered ruins of Roger's old estate hidden among the trees. James kneels to examine a fresh footprint in the mud that doesn't seem to belong to a ghost at all.

James Robert stands at the entrance of a dark, hidden path, his eyes narrowed as he prepares to confront the truth. The mystery of the Black Shadow is finally within his reach, and the secrets of Skyrope are about to be revealed.
