

# Lily's Four Seasons

JC kevin

Lily stands in a vast, vibrant meadow where four magical trees represent the changing year. Each tree glows with its own seasonal colors, from soft pink blossoms to frosty winter white, introducing us to Lily's wonderful world of nature.

As spring arrives with a warm breeze, Lily runs through a lush green field dotted with colorful wildflowers. She holds tight to her bright kite, watching it dance and soar high against the clear blue sky.

Under the golden rays of the summer sun, Lily finds relief in the sparkling blue waters of a cool lake. She splashes happily, surrounded by the lush greenery and the bright, cheerful energy of a hot summer day.

The air turns crisp as Lily wanders along a winding path covered in a crunchy carpet of red and yellow leaves. She climbs the rolling golden hills, admiring the rich, fiery colors of the trees during the beautiful autumn season.

When the world turns white with soft, powdery snow, Lily and her friend work together to build a grand snowman. They are bundled in warm coats and scarves, enjoying the quiet magic and icy fun of a winter wonderland.

Back home, Lily shares a warm hug with her mother as symbols of all four seasons float gently around them in a whimsical circle. With a bright smile, Lily realizes that every time of year is special, leaving us to wonder which season brings us the most joy.
