

Leo's English Adventure

Abby y Mily

Leo the little lion wakes up under a bright yellow sun. He rubs his eyes, smiles widely, and practices saying hello to the morning sky. The cheerful forest shines as Leo sets off on an exciting learning adventure.

Along the winding path, Leo meets a fluffy white rabbit hopping through the grass. Leo waves his paw gently and says good morning to his new friend. The rabbit twitches its soft ears and hops happily beside him.

Nearby, Leo spots three shiny red apples hanging high in a tall green tree. He counts them out loud, saying one, two, and three with a big smile. A cheerful blue bird flies down to help him pick the sweetest apple.

Next, Leo steps into a meadow filled with bright colors. He points to a red rose, a yellow sunflower, and a blue daisy. Learning colors makes the meadow look like a beautiful painting.

Feeling hungry after his walk, Leo sits under a leafy oak tree for a delightful snack. He enjoys eating his crisp apple and feels very happy. He remembers to say thank you for the wonderful treat.

Suddenly, a tiny green frog leaps out from behind a big rock with a splash into a clear stream. Leo laughs enthusiastically and bounces high in the air alongside the frog, practicing the word jump with every leap.

Soft raindrops begin to fall gently onto the big green leaves around him. Leo opens a bright umbrella, listens to the soothing sound of the rain, and smiles as he learns about the weather.

Soon, the warm sun shines through the clouds again, revealing a dazzling rainbow across the sky. Leo points excitedly at the sky and names all the bright colors he sees from top to bottom.

As the golden sun begins to set, all of Leo's forest friends gather together to celebrate their fun day. They share warm hugs and practice saying goodbye to one another with giant smiles.

Under a starry night sky, Leo curls up cozy in his soft bed. He feels proud of all the new English words he discovered on his big adventure. He whispers good night to the twinkling stars and drifts off to sleep.
