

The Greedy Rabbit

Zahraa Alfardan

Once upon a time, there lived a very greedy rabbit named Barnaby who had an enormous love for crunchy, sweet carrots.

Every single morning, Barnaby would hop away from his cozy burrow and head straight toward the farmer's lush vegetable field to snack on the delicious carrots.

He would munch and crunch on so many carrots that he always left only a tiny, barren fraction behind for anyone else.

The kind farmer soon noticed his missing crops and grew deeply saddened, spending his evening thinking of a clever way to protect his hardworking harvest.

The next morning, the farmer finished building a tall, sturdy wooden fence all around the perimeter of his beloved field.

Despite the high walls, the clever rabbit managed to find a tiny, hidden hole near the bottom and quietly squeezed his way inside.

Once he was safely inside the enclosed field, Barnaby began to feast on the fresh carrots with tremendous and unstoppable greed.

He ate so much and so quickly that his tummy began to stretch and swell until it was as round as a giant orange balloon.

When the sun began to set and Barnaby decided it was time to go home, he tried to wiggle back through the tiny hole, but he was simply too big to fit.

Stuck in the field for days until his tummy finally shrank back to normal, Barnaby learned his lesson and realized that greed always brings regret.
