

# Sparkle's Discovery

Earl hans Molino

Sparkle, a small, bright pink dragon, sighed. Another day, another pile of rocks to sort. She longed for something more exciting than her daily chores.

Wandering away from her duties, Sparkle stumbled upon a hidden grove. In the center stood a peculiar tree, laden with shimmering, multicolored fruit.

Curiosity piqued, Sparkle plucked a ruby-red fruit. As she nibbled, she saw a vision of herself as a famous rockstar dragon, adored by millions.

Next, she tasted a sapphire-blue fruit. This time, she saw herself as a powerful queen, ruling a vast kingdom with an iron fist.

A golden fruit revealed Sparkle as a brilliant scientist, making groundbreaking discoveries but isolated from everyone she loved.

A sickly green fruit showed her a future where she was incredibly wealthy but terribly lonely, surrounded by things but devoid of joy.

Sparkle felt overwhelmed. Each fruit offered a different path, each with its own set of challenges and sacrifices. She didn't know which one to choose.

Suddenly, a wise old tortoise appeared. He explained that the tree showed potential futures, not guarantees, and that every path had both good and bad.

The tortoise advised Sparkle to focus on the present and appreciate what she already had: her family, her friends, and her unique abilities.

Sparkle returned home, no longer bored but grateful. She sorted the rocks with a smile, knowing that her future was hers to create, one joyful moment at a time.
