

Let's Learn Hijaiyah Letters Together!

Dian Silvia

Hello, friends! Today we are going to learn the Hijaiyah letters together in a super fun way. Zayn and his little sister Aliyah are so excited to show you all the wonderful letters waiting for us.

This is the very first letter, Alif. It stands straight and makes a bright and clear A sound. Zayn points to the big Alif card with a huge smile and invites everyone to repeat it together.

Next comes the friendly letter Ba. Look closely at the single tiny dot resting right underneath it. It makes a happy Ba sound, so let us clap our hands and say it out loud together.

Here is the charming letter Ta. Notice the two shiny dots balancing right on top like two bright little eyes. It makes a crisp Ta sound, and you are doing such a wonderful job.

Look, here comes the special letter Tsa! This time, three tiny dots rest gracefully on top like sparkling stars. It makes a soft Tsa sound that is gentle and fun to practice.

Say hello to the bouncy letter Jim. It carries a single dot right inside its belly and makes a warm Ja sound. Zayn giggles as he traces the curved shape of the letter on the card.

Now we meet the gentle letter Ha. This letter has no dots at all, giving it a sleek and smooth shape. Take a quiet breath and pronounce the soft Ha sound slowly and smoothly.

Here is the proud letter Kha with a neat dot sitting right on top. It makes a distinct Kha sound from the back of the throat. Aliyah claps her hands in joy because you pronounced it so well.

Wow, look at how many letters you have mastered already! Zayn and Aliyah scatter their colorful flashcards across the soft floor mat. Learning is an exciting adventure, and there are many more letters waiting ahead.

Learning the Hijaiyah alphabet is full of joy when we take it step by step. Remember that practicing a little bit every day helps us grow and learn. Under the glowing moon and stars, Zayn and Aliyah wave goodbye until our next lesson!
