

Frosty's Winter Wonderland Adventure

by lianbo ma

The first snowflakes began to fall, blanketing the town in a soft, white layer. As the children built a snowman in the park, a sprinkle of magic brought him to life. Frosty, with his coal eyes and carrot nose, winked at the children.

Frosty, with a cheerful grin, waved his twig arms and invited the children on an adventure. They giggled with excitement, their faces flushed with the cold air and the promise of fun. The children knew this would be a special day they would never forget.

! [Children look up at the cheerful Frosty with excitement.]

Frosty led them to a sparkling frozen lake where they learned to ice skate. The children wobbled and laughed as they glided across the ice. Frosty, a natural skater, helped them as they learned.
