

The Wayfinder's Compassion

by Grant James Solomon

In the quiet of space, aboard the starship Wayfinder, Jedi Master Mr. Grant meditates. His eyes suddenly snap open as he senses a disturbance in the Force. He knows that a call for help, faint as a whisper, has reached out across the stars.

Mr. Chris, the Wayfinder's skilled pilot, expertly navigates through a treacherous asteroid field. Mr. Wi-Fi, the resourceful astromech droid, boosts the scanners. A holographic map appears, pinpointing the source of the mysterious signal.

They discover the source of the signal: a derelict cargo ship, drifting near a dangerous cosmic storm. The ship's hull is scarred, and all the lights are dead. A sense of unease hangs in the air.

As they dock, emergency lights flicker to life, revealing a band of mischievous Porg-pirates! Their leader squawks a challenge. They're ready to siphon the Wayfinder's power, but Mr. Grant has a different plan.

The Porg-pirates swarm the ship, but Mr. Grant holds up a calming hand. Mr. Wi-Fi projects a hologram, revealing the Porgs' home moon and the core crystal stolen by greedy miners. They were merely trying to survive.

Mr. Grant, using the Force, gently lifts the chattering Porgs, calming them with a wave of peace. He declares that they can help, knowing the location of their crystal. They embark on a thrilling chase to reclaim what was lost.
